SMART ERP — PRODUCT PORTFOLIO

Prepared for Management Review
June 2026

1. Executive Summary

Smart ERP is an integrated school management platform designed specifically for private and group schools. It connects finance, student registration, billing, HR payroll, and inventory into one unified system with full compliance support.

2. Product Vision

Mission: Provide schools a single trusted system for finance, operations, and people.

Target: Private schools, multi-campus groups, and education chains.

Delivery: Cloud-based system with role-based access and bilingual support.

3. Product Suite

Smart ERP includes three integrated solutions:

- Smart Account – Finance & operations
- InterHup – Academic & LMS system
- STIP HR – Recruitment system

4. Core Modules

- Finance: Accounting, vouchers, reports
- Registration: Students, fees, policies
- Billing: ZATCA compliant invoicing
- HR: Payroll, attendance, leaves
- Inventory: Stock and store management
- Parent Portal: Fee tracking and payment proof upload

5. Key Features

- Full fee lifecycle automation
- Parent self-service portal
- Automated accounting integration
- Multi-school support
- Arabic & English interface
- ZATCA compliance

6. Implementation Status

The system includes over 100+ features across modules and is ready for Phase 1 deployment with minor enhancements in progress.

7. Technology

Built on Laravel (PHP), MySQL database, and modern web technologies with strong security and API integrations.

8. Use Cases

- Single school management
- Multi-campus groups
- KSA compliance (ZATCA)
- ERP + LMS integration

9. Conclusion

Smart ERP is a complete, scalable, and education-focused solution designed to simplify school operations and enable growth.
